Plano, TX | 682-257-7208 | nabintousfofana@gmail.com | github.com/NabintouSFofana |
linkedin.com/in/nabintousfofana | Portfolio: <https://nabintousfofana.github.io/portfolio/>

EDUCATION

Bachelor of Science in Software Engineering | The University of Texas at Dallas | Expected May 2027

PROFESSIONAL EXPERIENCE

Freelance Developer . Schicgirl™ (Natural Hair Brand) | March 2024 , Present

- Developed and maintain bilingual (FR/EN) front end live pages including storefront, diagnostics, booking system, and AI assistant using HTML/CSS/JavaScript deployed on GitHub Pages
- Architected Supabase backend with row-level security across 11 tables supporting paid membership platform, private forum with posts, and lessons interactive studio

PROJECTS & TECHNICAL ACCOMPLISHMENTS

TerraScape - Unity/C# Procedural Terrain Sandbox (Computer Graphics, 2026)

- Engineered click-to-place object placement system using Physics.Raycast for mouse picking with real-time translate/rotate/scale manipulation in 3D space
- Designed and implemented fractal L-system engine generating procedural geometry (trees, dragon curve, Koch, Hilbert, Sierpinski curves) from string-grammar rules; established team Git workflow enabling 4 teammates with varying experience to contribute without scene file conflicts

InsightFlow - CSV-to-PDF Analytics Application (2026)

- Developed Flask web application and CLI tool that transforms messy CSV data into one-page PDF reports with automated summary statistics, charts, and plain-English insights
- Refactored monolithic script into reusable modules (cleaner, insights, reporter);
- Deployed to production on Render.

Math Adventure . Spring Boot K,5 Educational Platform (Software Engineering Project, 2025)

- Rebuilt backend solo post-project: refactored static utility classes into Spring services with dependency injection, converted plain-text responses to JSON DTOs with proper HTTP status codes, split multiple lines frontend into 8 ES modules; grew test coverage from many cases.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C#, HTML, CSS, SQL

Frameworks & Platforms: Flask, Spring Boot, Supabase, React, Git/GitHub, Unity, Google Apps Script, Render

AI & Tools: Claude API, prompt engineering, Pandas, Matplotlib, FPDF, Linux terminal
